## EXPERIENCE

- Jun. 2016 - Jan. 2021    GENSLER  
**Project Architect**  
During my 4.5 years starting as Technical Designer, and growing into my role of Project Architect, I managed architecture and interiors project teams and deliverables, from conceptual visioning with clients, to delivering technical excellence in documentation, and managing construction administration. My project experience is in hospitality, retail, and commercial office projects from 900 SF to 900,000 SF. As Design Resilience Leader, I tracked my studio's project metrics for sustainability, and served on a regional team as a resource on resilience strategies and reporting. I also ensured client expectations were exceeded in materials representation, creating 3D visualizations and project media - all while growing our team and stewarding studio culture.
- Feb. 2014 - Jun. 2016    RJTR  
**Project Coordinator**  
While building upon a solid foundation of quality document production, I expanded my experience by collaborating with clients to develop conceptual design for projects, managing teams through all design phases, and construction administration on Multi-Family, Mixed Use, and Senior Living projects.
- Jun. 2013 - Feb. 2014    THE PRESTON PARTNERSHIP  
**Project Coordinator**  
Responsibilities included production of construction documents in the Multi-Family/Mixed-Use project studio, coordination with the client and engineering disciplines as well as architects and principle designers.
- Aug. 2012 - Jun. 2013    AKA STUDIO  
**Senior Designer**  
Responsibilities included managing all project phases including schedule / budget, site documentation, as-built drawings, preliminary design, and contract documents for small retail / restaurant renovation projects.; creating architectural renderings and visualizations.

## EDUCATION

- 2009    BACHELOR OF ARCHITECTURE  
Kennesaw State University  
My time in school was obsessed with user experience - how occupants of our designs can learn about themselves and one another. Another focus was research in responsible urban land use, and equitable housing.

## COMMUNITY

- AIA Atlanta COTE:  
2019 - present Outreach & Education Chair  
2018 - COTE Chair  
Gensler Research Institute Grant Recipient:  
2020 - "Beyond the Stone: Giving Voice to a New, Inclusive South"  
Gensler Club Ideate:  
2019 - 2020 Partnership w/ Boys and Girls Club of America - 2019  
Construction Atlanta:  
2016 - Gensler "Structural Ingenuity" Award  
- Gensler "Most Cans" Mention  
2015 - RJTR Special Mention  
2013 - The Preston Partnership "Best Use of Lables" Award

## SKILLS

Conceptual Visioning  
3D Visualization, VR / AR  
Technical Development & Documentation  
Construction Administration  
Design Strategy  
Resilience Metrics

## TECHNOLOGY

- Autodesk Revit & CAD
- Enscape
- Bluebeam
- Adobe Photoshop, InDesign, Illustrator
- Tableau Metrics
- Qualtrics Data Analytics
